CM4043/4044 Individual Contribution Declaration Form

Project Group Number: 14

Project Title: For the same property-prediction task, how much of the performance comes from the representation rather than the model?

Course Code: CM4044

Date: 23 October 2026

Instructions: Each group member completes ONE row of this form. Write your matriculation number and name, then describe in the third column the parts of the project you personally contributed to (e.g., research, design, implementation, documentation, presentation preparation). Be specific and honest — this form will be used to verify individual contributions.

Matriculation Number	Student Name	Individual Contribution Claims
U2440397D	Wan Jeng Hor	1. Fixing base code and adding headers and explanation to cells 2. Created and organized repository for files
U2440387F	Yap Kang Lin	1. 1. Helped in curating the datasets and generating the code 2. 2. Designed presentations slides
U2440043D	Serene Ann Bravin	1. Generated base code 2. Added Data set and Model code 3. Generated Read me and Text repository

Declaration: We declare that the contributions described above are accurate and reflect our own work.
